

Security Settings

Last Modified on 09/22/2021 3:38 pm EDT

Version 14.19

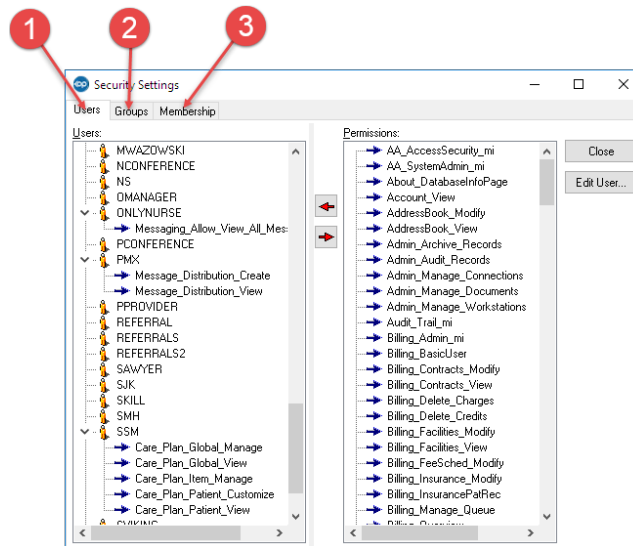

This window map article points out some of the important aspects of the window you're working with in OP but is not intended to be instructional. To learn about topics related to using this window, see the **Related Articles** section at the bottom of this page.

About Security Settings

Path: Admin tab > Security Administration

The Security Settings window assigns specific permissions or program privileges to an individual staff member or group. Permissions can be assigned and removed in this window.

Security Settings Map

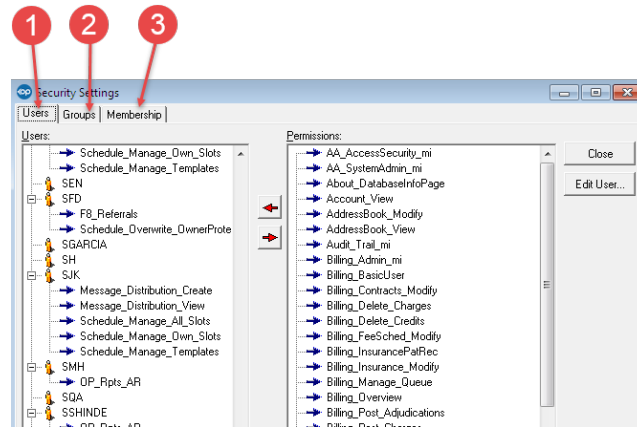

Number	Section	Description
1	Users tab	The Users tab assigns permissions to specific users. Users permissions can be edited in this tab.
2	Groups tab	The Groups tab assigns permissions to groups of users. Groups are added, edited, and removed in this tab.
3	Membership tab	The Membership tab assigns individual users to groups so that the user can have the permissions for that group.

Version 14.10

About Security Settings

Path: Utilities Menu > System Admin > Security Administration (Keyboard Shortcut keys: [Alt][U] [A][D])

The Security Settings window assigns specific permissions or program privileges to an individual staff member or group. Permissions can be assigned and removed in this window.
