[template("cat-subscribe")]

OP has several different training options available! Whether you're completely new to OP or simply want to enhance how you use OP, we have a training solution to help you achieve your goals.

Live Group Webinars

OP's group training webinars are free, role and topic-based sessions that provide OP users a forum to ask questions, discuss best practices, and clarify workflows with users from different practices. While these sessions are geared toward new OP users, they are also a perfect opportunity for not-so-new users to learn different ways to expand their usage of OP!

 **Use the catalog below to register for Group Training sessions!** Click [read more](#) to see the full description for each session. The session objectives are listed on the registration page, accessible by clicking **Register** or by clicking the session title. After registering, be sure to mark your session on your calendar so that you don't forget. You may even inspire your colleagues to join us! **Note:** Scheduled group training sessions will be canceled 15 minutes after the start time if no attendees join the session. Seating is limited to 50 attendees.

Other Training Options

Click the sections below to expand/collapse each training option.

eLearning *Training anytime, anywhere*

OP's eLearning provides the foundational education needed to start using OP. The eLearning modules are self-paced, interactive, and accessible at any time you have internet access. They are also role-based so that you can focus on learning the parts of OP that you'll be using every day! Many sessions also include assessments that allow Practice Managers/Administrators to easily track staff's progress. **eLearning is a pre-requisite to OP's other training options.**

Online Training *Scheduled, remote, and interactive training*

Private instructor-led training sessions are available for one or more members of your practice. These sessions are conducted remotely so that you can connect from the comfort of your home or office.

Onsite Training *Side-by-side training with OP experts*

With this training option, OP's expert Training Specialists will travel to your practice to provide in-person, in-office training! Onsite training provides an "on-the-job" training experience with people who know OP the best!

Keep the Conversations Going!

Want to keep the conversations going after your training sessions and as you use OP more and more? Join our **OP Community Listservs** to join or start conversations about workflows, get OP tips and tricks from fellow OP users, share best practices and successes, and learn something new every day!
