

# Change Expiration Date on Administered COVID-19 Vaccines

Last Modified on 11/10/2021 12:18 pm EST

## About

The functionality demonstrated in the video is specific to COVID-19 vaccine lots where doses have been administered. The permission of **VaccineInventory\_expir** must be assigned to the staff member(s) that will make the change to the vaccine lots. Current functionality will remain to edit the expiration date on vaccine lots where no doses have been administered.

## Demo Video: Steps to Change a Vaccine Expiration Date
