

# Patient Chart: Asthma Action Plans

Last Modified on 12/28/2022 8:48 am EST

Version 21.0

This window map article points out some of the important aspects of the window you're working with in OP but is not intended to be instructional. To learn about topics related to using this window, see the **Related Articles** section at the bottom of this page.

## About Patient Chart: Asthma Action Plans

**Path: Clinical, Practice Management, or Billing tab > Patient Chart button > Asthma Plans**

Asthma Action Plans (also known as the Asthma Action Plan Wizard) are used to customize an Asthma Plan for a patient's symptoms and needs. The Asthma Plan lists the triggers, severity level, treatment plan, and other information regarding a patient's asthma condition. The window is broken into tabs to allow users to easily navigate through the sections of the Plan. Additionally, Back and Next buttons are available.

**Note:** Just like a paper chart, the electronic chart in OP contains personal health information and should be kept protected and confidential. Always close all windows on your screen and log out of OP when you are not at your workstation.

The screenshot shows the 'Asthma Action Plans' window for patient MADDISON L. 'MADDI' SMITH (7289). The window has a sidebar on the left with a menu where 'Asthma Plans' is highlighted (callout 1). The main area has tabs: 'Existing', 'Triggers/Data', 'Control/Severity', 'Step Therapy', 'Action Plan', and 'Save/Print' (callout 2). The 'Existing' tab is active, showing a table of existing plans (callout 3). Below the table are radio buttons for 'Desired action' (callout 4): 'Create a new Asthma Plan from scratch' (selected), 'View/Print the selected Asthma Plan', 'Copy/Update the selected Asthma Plan', and 'Delete the selected Asthma Plan'. A warning message states: 'Edits are not permitted after the AAP is saved, please review your AAP carefully before saving.' At the bottom are '< Back' and 'Next >' buttons (callout 5).

Date Written	Age	Provider	Peak Flow	Severity Level
11/08/2021	11			Mild persistent
05/05/2020	10		Predicted Peak Flow: 307	Mild persistent
04/09/2020	10	Reed Fowler, DO		Mild persistent
04/09/2020	10	Reed Fowler, DO		Mild persistent

Desired action:

- ☒ Create a new Asthma Plan from scratch
- ☐ View/Print the selected Asthma Plan
- ☐ Copy/Update the selected Asthma Plan
- ☐ Delete the selected Asthma Plan

Edits are not permitted after the AAP is saved, please review your AAP carefully before saving.
