Complete a Patient's Risk Assessment

Last Modified on 12/11/2020 4:10 pm EST

Version 20.10

Overview

Risk Assessment questions and answers can be used in practice Care Plans and as values for Patient Centered Medical Home (PCMH). When a Risk Factor is an eligible Social Determinant of Health and considered pertinent to an Encounter visit, it is used in the calculation of MDM. If a Risk Factor has not been selected as a Social Determinant of Health in the Risk Assessments Editor, the Risk Factor will be included in the Visit Note Summary but will not count towards MDM. For more information, view the [Risk Assessments and Responses](#) article. In addition, there are certain Risk factors that display based on the child's age.

Complete the Risk Assessment

1. From an open Visit Note, click **Risk Assess** in the Window Navigation panel.
2. If there are no changes or additions to the current Risk Factors, click the **Mark Reviewed** button.
3. If there are changes or additions to the current Risk Factors, follow the steps below:
 - a. **Status:** Click into the Status field, select an option from the drop-down menu.
 - b. **Notes:** Enter notes or comments as needed.
 - c. **Pert:** Click the checkbox if the Risk Factor is relevant to the visit as a social determinant of health. Selecting the checkbox will be used in the MDM coding calculation for Encounters.

Risk Assessment						
Current Risk Factors		Review Log				
			<input type="checkbox"/> show all risk factors	<input type="checkbox"/> expand grid		
Risk Factor	Status	Notes	Pert	PL	Created By	Status Date
Second hand smoke	Current exposure		<input type="checkbox"/>	<input checked="" type="checkbox"/>	Cindy Malek	01/16/2020
Lead exposure	Unknown		<input type="checkbox"/>	<input type="checkbox"/>	Cindy Malek	01/16/2020
Tuberculosis	Unknown		<input type="checkbox"/>	<input type="checkbox"/>	Cindy Malek	01/16/2020
Oral health	Unknown		<input type="checkbox"/>	<input type="checkbox"/>	Cindy Malek	01/16/2020
Food insecurity	Unknown/Not Performed		<input type="checkbox"/>	<input type="checkbox"/>	Cindy Malek	01/16/2020
Health Literacy	Unknown/Not Performed		<input type="checkbox"/>	<input type="checkbox"/>	Cindy Malek	01/16/2020
Housing Insecurity	Positive Screen for Housing Insecurity		<input checked="" type="checkbox"/>	<input type="checkbox"/>	Cindy Malek	11/30/2020

Note: In order for a selected Risk Factor to count towards MDM coding, the Risk Factor must be set up as a Social Determinant of Health in Risk Assessments.

- d. **PL:** Click the button to add the Risk Factor to the Problem List.
 - e. **Created By:** Displays the name of the current logged in user.
 - f. **Status Date:** Displays the current date. Date updates when a change is made to the status.
4. To update a Risk Factor that is not currently displaying for a child due to their current age (i.e. Smoking Status prior to the age of 13), select the **show all risk factors** checkbox.

Version 20.8

Overview

Risk Assessment questions and answers can be used in practice Care Plans and as values for Patient Centered Medical Home (PCMH). While Risk Factors are typically assessed during a Well Visit, the Risk Assess section of the Patient Chart is also available during the charting of an Encounter. Risk factors display based on the child's age.

Complete the Risk Assessment

1. From an open Visit Note, click **Risk Assessment** in the Window Navigation panel.
2. If there are no change or additions to the current Risk Factors, click the **Mark Reviewed** button.
3. If there are changes or additions to the current Risk Factors, follow the steps below:
 - a. **Status:** Select an **option** from the drop-down menu.
 - b. **Notes:** Enter **notes** or **comments** as needed.
 - c. **PL:** Click the **Button** to add a positive status to the Problem List.
 - d. **Created By:** Displays the name of the current logged in user.
 - e. **Status Date:** Displays the current date. Date updates when a change is made to the status.
4. **Show all risk factors:** To update a Risk Factor that is not currently displaying for a child due to their current age (i.e. Smoking Status prior to the age of 13), select the **checkbox** to see a list of all Risk Factors in OP.

Well Visit: TUCKER DELANEY (4945) | Sex: M | DOB: 10/12/2013 | Age DOV: 5 yrs. 9 mos. | Ins: CIGNA PPO
