

# Writing Prescriptions: Writing a Free-Text Prescription

Last Modified on 08/06/2023 6:14 pm ED

#### Version 21.3

### Path: Clinical, Billing, or Practice Management tab > Patient Chart > Medications

# About

Free-text or unformatted prescriptions cannot be sent out electronically because they do not have an NDC number. However,

they can be used to issue medication-related orders on paper or for other quick documentation that requires a doctor's order (e.g. physical therapy referral, DME order.)

- 1. Navigate to the patient's Medications by following the path above.
- 2. Click the New button to open the Prescription window.
- 3. In the Purpose field, use the drop-down to select  $\ensuremath{\text{Med}}$   $\ensuremath{\text{unformatted}}$  from the list.
