

Important Content Update Message

We are currently updating the OP Help Center content for the release of OP 20. OP 20 (official version 20.0.x) is the certified, 2015 Edition, version of the Office Practicum software. This is displayed in your software (**Help tab > About**) and in the Help Center tab labeled Version 20.0. We appreciate your patience as we continue to update all of our content.

Last Modified on 12/19/2019 3:56 pm EST

The following Specifications and Recommendations made by Office Practicum are based solely on what has worked for our clients.

We are in no way endorsing the use of one product over another. Please consult with your IT Professional to make sure your devices meet our minimum requirements.

 Windows 10 is supported on OP versions 14.6 and up

Network

The network links all the computers through out the office so they can communicate.

- Standard Ethernet network: 100mbs switch minimum, category 5x or 6x wiring
- DSL/T1 or cable internet connection (also required for training)

Note: Setting-up the network requires the work of a hardware technician and this would be an expense amount set by the technician themselves.
