

### Important Content Update Message

We are currently updating the OP Help Center content for the release of OP 20. OP 20 (official version 20.0.x) is the certified, 2015 Edition, version of the Office Practicum software. This is displayed in your software (**Help tab > About**) and in the Help Center tab labeled Version 20.0. We appreciate your patience as we continue to update all of our content.

## Scanning Workstation

Last Modified on 12/23/2019 9:32 am EST

The following Specifications and Recommendations made by Office Practicum are based solely on what has worked for our clients.

We are in no way endorsing the use of one product over another. Please consult with your IT Professional to make sure your devices meet our minimum requirements.

Windows 10 is supported on OP versions 14.6 and up

## Scanning Workstation

**Note:** Scanning workstations need to be a little more robust as scanning consumes higher than average amounts of memory.

If the workstation is to be configured as an scanning workstation it should have:

- A dedicated network connection (no wireless connection).
- 2GHz+ processor (Dual Core preferred)
- Random Access Memory (RAM):
  - 4 GB minimum
- 120 GB+ Hard Drive SATA 7200RPM
  - 16 MB or 32 MB Cache
- Monitor (monitor must be capable of displaying minimum resolution of 1920x1080):
  - 19" Monitor recommended.
