

Accessories

Last Modified on 11/06/2018 4:05 pm EST

The following Specifications and Recommendations made by Office Practicum are based solely on what has worked for our clients.

- We are in no way endorsing the use of one product over another. Please consult with your IT Professional to make sure your devices meet our minimum requirements.

 Windows 10 is supported on OP versions 14.6 and up

Accessories

These two accessories will be extremely helpful in using Office Practicum for your practice:

- Good Internet security is necessary. We recommend purchasing Norton Anti-Virus and Internet Security software - also available from Dell.
- You will need an "Uninterruptible Power Supply," or UPS, for the server, the emergency server, and the router. This is a security precaution in the event that you lose power in a storm or because of electrical failure. It will protect the computers and prevent you from losing any data.
