This window map article points out some of the important aspects of the window you're working with in OP but is not intended to be instructional. To learn about topics related to using this window, see the **Related Articles** section at the bottom of this page.

## About Patient Chart: Allergies

**Path: Clinical, Practice Management, or Billing tab > Patient Chart button > Allergies**

The Allergies section of the patient's chart contains a list of all known allergies for the patient. You can easily add or modify items from this window.

**Note:** Just like a paper chart, the electronic chart in OP contains personal health information and should be kept protected and confidential. Always close all windows on your screen and log out of OP when you are not at your workstation.

The screenshot shows the 'Allergies' window for patient LYNNE A. CHAN (7247). The window has a toolbar with buttons: New, Delete, Edit, Mark Reviewed, Print, No Med Allergies, Refresh, Active only, and Include EFR (1). The main area displays a table of allergies. Callout 1 points to the 'Allergies' button in the left sidebar. Callout 2 points to the 'New' button. Callout 3 points to the 'Delete' button. Callout 4 points to the 'Edit' button. Callout 5 points to the 'Mark Reviewed' button. Callout 6 points to the 'Print' button.
