

# Well Visit: Development

Last Modified on 09/20/2021 2:51 pm EDT

Version 14.19

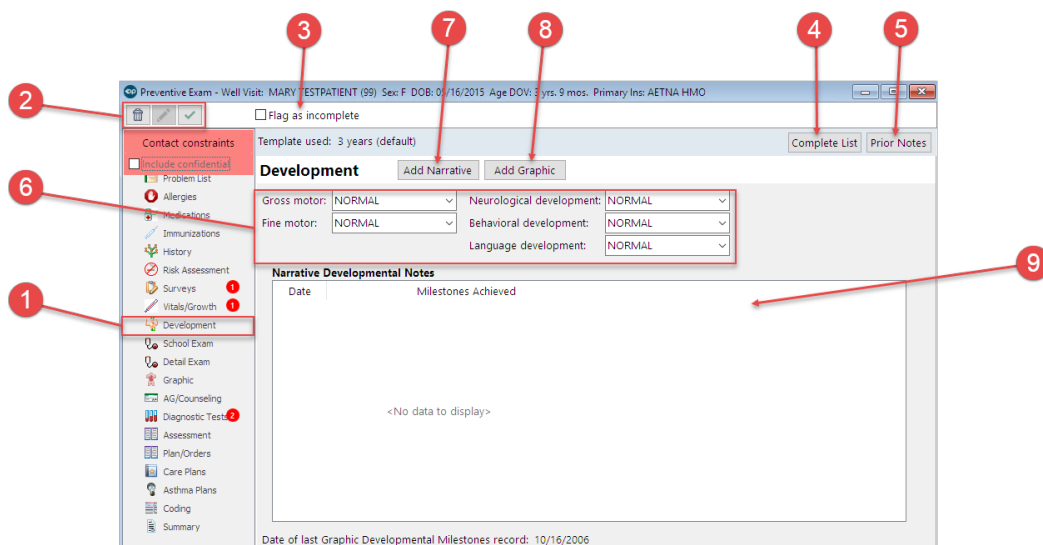

This window map article points out some of the important aspects of the window you're working with in OP but is not intended to be instructional. To learn about topics related to using this window, see the **Related Articles** section at the bottom of this page.

## About Well Visit: Development

**Path: Clinical, Practice Management, or Billing tab > Patient Chart button > Well Visits > New or Open Note button > Development**

The Development tab section of the Well Visit Note is used to document Developmental Milestones. Developmental milestones can be documented in a narrative or graphic chronology. This section of the Well Visit Note is chart-driven, meaning that the information populated here is pulled from and pushed back to the Patient Chart.

## Well Visit: Development Tab Map

Number	Section	Description
1	Development button	The Development button accesses the Development window in the patient's Well Visit Note.
2	Well Visit Function buttons	The function buttons delete an entire Well Visit Note, edit a Well Visit Note, or save a Well Visit Note.
3	Flag as Incomplete checkbox	The Flag as Incomplete checkbox marks the Well Visit Note as unfinished.
4	Complete List button	The <b>Complete List</b> button lists the templates that are created, edited, and reviewed in the <b>Well Visit Template Editor</b> . Templates are pre-written scenarios you can use in a Well Visit to document common pediatric diagnoses. Templates include detailed descriptions for the usual pertinent positive and negative findings of a wide variety of illnesses, with a standard assessment, plan, and ICD-10 coding. Included with your installation of Office

		Practicum are Pediatric specific templates.
5	Prior Notes button	The <b>Prior Notes</b> button opens a list of the previous Visit Notes.
6	Milestone Assessment	<p>The Milestone Assessment is a drop-down assessment selection for the development categories (Gross motor, Fine motor, Neurological development, Behavioral development, Language development). The drop-down assessment selections are:</p> <ul style="list-style-type: none"> <li>• Normal</li> <li>• Abnormal</li> <li>• Delayed</li> <li>• Referred</li> <li>• See Notes</li> </ul>
7	Add Narrative	Clicking the <b>Add Narrative</b> button opens the <b>Developmental Milestones</b> window, which applies the narrative milestones to the patient’s chart.
8	Add Graphic	Clicking the <b>Add Graphic</b> button opens the Developmental Evaluation window, which applies the graphical milestones to the patient’s chart.
9	Milestone grid	The Milestone grid displays the narrative or graphical milestone list.

## About Preventive Exam: Development Tab

**Path: Smart Toolbar > Chart button > Well Visits tab > Open Note button > Development tab**

**Path: Smart Toolbar > Schedule Button > Well Visit tab > Edit button > Development tab**

The Preventive Exam window charts a patient well-visit exam. The Preventive Exam window helps to code and complete a preventive encounter visit. The preventive exam note encompasses both narrative and comprehensive formats. It also allows you to customize the layout of the note. The note is added to the patient chart.

The Development tab lists documented developmental milestones. Developmental milestones can be documented in a narrative or graphic chronology.
