This function is not available in OP if you utilize eLabs. If you use eLabs, click **here**.

Reviewing Lab Results in the OP Application

The OP Diagnostic Tests Importer removes lab results from the Lab Results grid after they have been added to a requisition.

After a lab result has been filed with a requisition, you can view the results in the OP application. To do so:

1. Go to **CLINICAL** > **Received**.
2. The Diagnostic Test results are displayed:

You can choose to view results that have been received, reviewed, or both by marking the **Received**, **Reviewed**, or **Both** radio buttons respectively.
