General Release Notes Information

These release notes describe the new functionality, improved functionality, and resolved issues included with OP Diagnostic Tests Import Utility Version 14.3.3.

New Features

Non Function-specific New Features

There are no new features in this release that impact the overall application.

Function-specific New Features

There are no new features in this release that impact a specific function.

Improved Functionality

Non Function-specific Improved Functionality

There is no improved functionality in this release that impacts the overall application.

Function-specific Improved Functionality

There is no improved functionality in this release that impacts a specific function.

Resolved Issues

Non Function-specific Resolved Issues

There are no resolved issues in this release that impact the overall application.

Function-specific Resolved Issues

Epic HL7 Messages

Issue:	The OP DTI was not correctly processing HL7 messages from Epic.
Resolution:	Updated the software so that the OP DTI correctly processes HL7 messages from Epic.

HL7 Files Import

Issue:	The OP DTI was not able to process some lab HL7 files. This issue impacted OP DTI Version 14.3.2.
Resolution:	Updated the software so that the OP DTI successfully processes all HL7 files from all supported labs.

Lab Result Status

Issue:	When a provider has ordered multiple tests and the practice is receiving partial results from those tests, the OP DTI was not displaying Lab Result Status (RS) correctly.
Resolution:	Updated the software so that the OP DTI displays Lab Result Status correctly when receiving partial results from multiple tests.

Known Critical Issues

There are no known issues in this release.
