There are no new features in this release that impact the overall application.

Function-specific New Features

There are no new features in this release that impact a specific function.

Improved Functionality

Non Function-specific Improved Functionality

There is no improved functionality in this release that impacts the overall application.

Function-specific Improved Functionality

There is no improved functionality in this release that impacts a specific function.

Resolved Issues

Non Function-specific Resolved Issues

There are no resolved issues in this release that impact the overall application.

Function-specific Resolved Issues

DTI / HL7 Messages

| | |
|--------------------|---|
| Issue: | The OP Diagnostic Tests Import (DTI) utility was not saving HL7 messages to the database in such a way that they met Meaningful Use (MU2) requirements. |
| Resolution: | Updated the software so that the DTI utility saves HL7 messages to the database so that the DTI meets the Full Report feature for the diagnostic tests section of MU2 requirements. |

Known Critical Issues

There are no known issues in this release.
