There is no improved functionality in this release that impacts the overall application.

Module-specific Improved Functionality

There is no improved functionality in this release that impacts a specific module.

Resolved Issues

Non Module-specific Resolved Issues

There are no resolved issues in this release that impact the overall application.

Module-specific Resolved Issues

Lab Results / Message Field

Function:	When the DTI received a message, the Ordering Provider did not display in the message.
Solution:	Updated software so that the first and last name of the Ordering Provider display in all message that the DTI receives.

Lab Result / Filename Field (HL7)

Issue:	The DTI was not clearly distinguishing between the Ordering Provider and the OP Provider (the OP doctor assigned to review the results).
Resolution:	Updated the software so that the DTI clearly distinguishes between and correctly displays the Ordering Provider and the OP Provider.

Known Issues

There are no known issues in this release.
