

We are currently updating the OP Help Center content for the release of OP 14.19 or OP 19. OP 19 is a member of the certified OP 14 family of products (official version is 14.19.1), which you may see in your software (such as in Help > About) and in the Help Center tabs labeled 14.19. You may also notice that the version number in content and videos may not match the version of your software, and some procedural content may not match the workflow in your software. We appreciate your patience and understanding as we make these enhancements.

# How do I Add Providers to the Diagnostic Test Importer (DTI)?

Last Modified on 10/09/2019 8:25 am EDT

To add a Provider to the Diagnostic Test Importer (DTI), follow these steps:

1. Navigate to **Tools tab > Old Lab Importer**. The OP Lab Import Multi Location window opens.
2. Click the **Show Configuration** button.
3. Click the **Configuration** tab.
4. In the **Office Location Identification** panel, select the lab Name where the provider will be added.
5. In the **Provider Lab Identification (Lab Links)** panel, click the **Add** button. A new entry field appears.
6. Click the drop-down in the **Staff Member** field and select the provider to add.
7. Enter the ID number assigned by the Lab in the **Identifier Assigned by Lab** column.

The screenshot shows the 'OP Lab Import Multi Location' window with the 'Configuration' tab selected. The 'Lab Configuration' table lists various lab locations. Below it, the 'Office Location Identification' panel shows '1 | 1097019' selected. The 'Provider Lab Identification (Lab Links)' panel shows a list of staff members with their identifiers assigned by the lab.

ClientID	RecDir	OPLabel	LabName	LabNote	OrdtTypeID	HandVredCol	HL7Version	ACK	File Ext	Default?	Requisition Creation
