

SQL: Meningitis ACWY Vaccine Completion Status

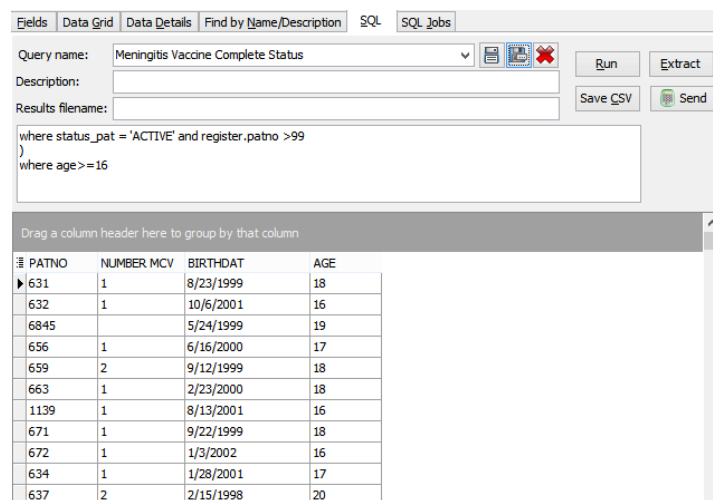

Last Modified on 12/13/2023 4:51 pm EST

There are two versions of this SQL: Firebird and MySQL. The MySQL version only applies to clients who are BETA testing MySQL. All other Practices should continue to use the Firebird version of this code. Click to expand and copy the code you need. If you are unsure which code to use, please check with your Practice Administrator.

About

This report shows all active patients ages 16 and up and lists the number of meningococcal ACWY vaccines they have had administered (either by the practice or legacy vaccines).
