

SQL: No Show Details

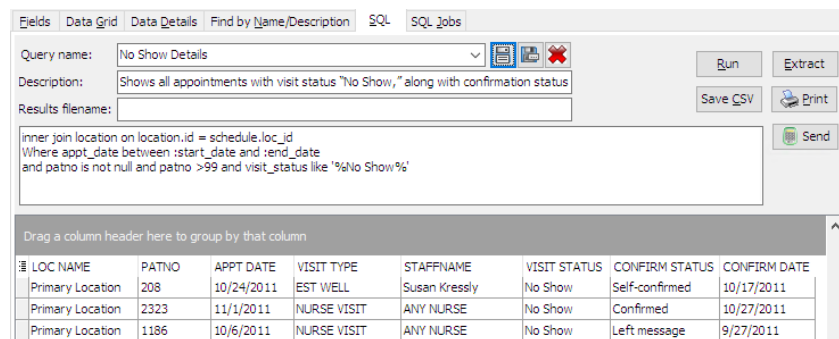

Last Modified on 01/06/2022 10:30 am EST

i There are **two versions** of this SQL: Firebird and MySQL. The **MySQL version** only applies to clients who are **BETA testing MySQL**. All other Practices should continue to use the Firebird version of this code. Click to expand and copy the code you need. If you are unsure which code to use, please check with your Practice Administrator.

About

This report shows all appointments with visit status "No Show," along with confirmation status & date, location, appointment date, chart number, and type of visit for two schedule dates you specify.

A sample image of this SQL report run in the Database Viewer is shown below:

LOC NAME	PATNO	APPT DATE	VISIT TYPE	STAFFNAME	VISIT STATUS	CONFIRM STATUS	CONFIRM DATE
Primary Location	208	10/24/2011	EST WELL	Susan Kressly	No Show	Self-confirmed	10/17/2011
Primary Location	2323	11/1/2011	NURSE VISIT	ANY NURSE	No Show	Confirmed	10/27/2011
Primary Location	1186	10/6/2011	NURSE VISIT	ANY NURSE	No Show	Left message	9/27/2011

Caveats

The provider name comes from the column on the schedule.

SQL Code: Firebird

To highlight and copy the code below to your clipboard, simply click the **Copy** button.

Copy

```
select loc_name, patno, appt_date, code1 as visit_type, staffname, visit_status, confirm_status, confirm_date from sche
dule
inner join staff1 on staff1.staffid = schedule.addr_id
inner join location on location.id = schedule.loc_id
Where appt_date between :start_date and :end_date
and patno is not null and patno >99 and visit_status like '%No Show%'
```

SQL Code: MySQL

To highlight and copy the code below to your clipboard, simply click the **Copy** button.

[Copy](#)

```
select loc_name, patno, appt_date, code1 as visit_type, staffname, visit_status, confirm_status, confirm_date from schedule  
inner join staff1 on staff1.staffid = schedule.addr_id  
inner join location on location.id = schedule.loc_id  
Where appt_date between :start_date and :end_date  
and patno is not null and patno >99 and visit_status like '%No Show%'
```
