

SQL: Review Cancelled Appointments

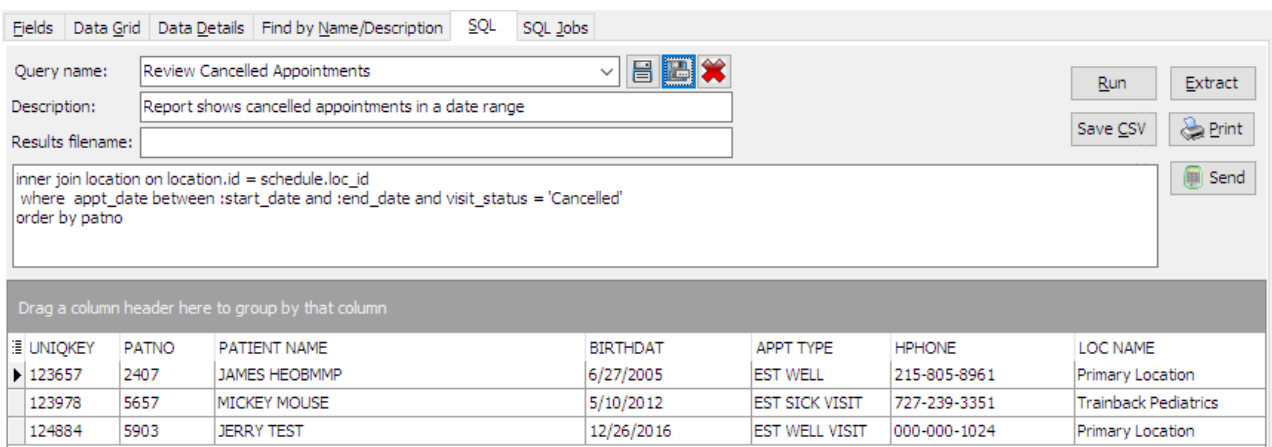

Last Modified on 06/12/2024 2:21 pm EDT

i There are **two versions** of this SQL: Firebird and MySQL. **The MySQL version only applies to clients who have migrated to MySQL.** All other Practices should continue to use the Firebird version of this code. Click to expand and copy the code you need. If you are unsure which code to use, please check with your Practice Administrator.

About

This report shows the patient name, DOB, patient phone number, and schedule information (scheduled provider, date/time, and location) for cancelled appointments in a date range that you specify.

A sample image of this SQL report run in the Database Viewer is shown below:

The screenshot shows a Database Viewer interface with the following elements:

- Query name: Review Cancelled Appointments
- Description: Report shows cancelled appointments in a date range
- Results filename: (empty)
- SQL Code:

```
inner join location on location.id = schedule.loc_id
where  appt_date between :start_date and :end_date and visit_status = 'Cancelled'
order by patno
```
- Buttons: Run, Extract, Save CSV, Print, Send
- Table with columns: UNIKEY, PATNO, PATIENT NAME, BIRTHDAT, APPT TYPE, HPHONE, LOC NAME

UNIKEY	PATNO	PATIENT NAME	BIRTHDAT	APPT TYPE	HPHONE	LOC NAME
123657	2407	JAMES HEOBMMP	6/27/2005	EST WELL	215-805-8961	Primary Location
123978	5657	MICKEY MOUSE	5/10/2012	EST SICK VISIT	727-239-3351	Trainback Pediatrics
124884	5903	JERRY TEST	12/26/2016	EST WELL VISIT	000-000-1024	Primary Location

Report Usage Ideas

You can sort by TOTAL_CANCELLED to see the total number of appointments cancelled during the period. This may be useful for following up with patients who cancel more than is typical.
