

# SQL: All Surveys for Dates

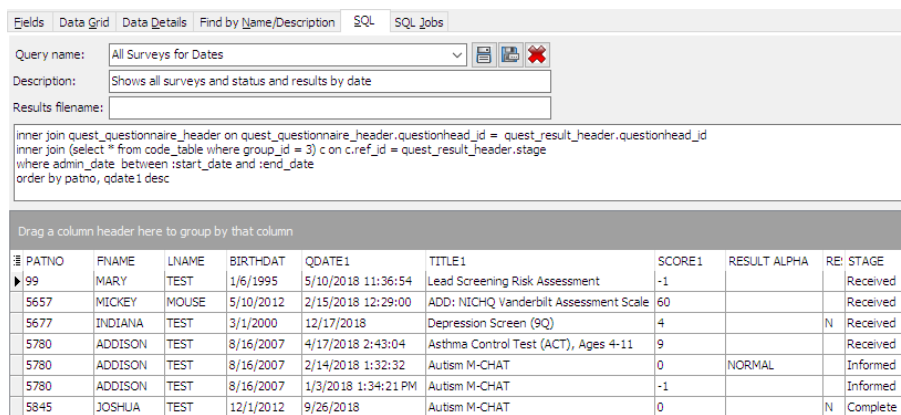

Last Modified on 01/06/2022 9:48 am EST

**i** There are **two versions** of this SQL: Firebird and MySQL. The **MySQL version** only applies to clients who are **BETA testing MySQL**. All other Practices should continue to use the Firebird version of this code. Click to expand and copy the code you need. If you are unsure which code to use, please check with your Practice Administrator.

## About

This report shows all surveys and status and results by date.

A sample image of this SQL report run in the Database Viewer is shown below:

PATNO	FNAME	LNAME	BIRTHDAT	QDATE1	TITLE1	SCORE1	RESULT ALPHA	REI STAGE
99	MARY	TEST	1/6/1995	5/10/2018 11:36:54	Lead Screening Risk Assessment	-1		Received
5657	MICKEY	MOUSE	5/10/2012	2/15/2018 12:29:00	ADD: NICHQ Vanderbilt Assessment Scale	60		Received
5677	INDIANA	TEST	3/1/2000	12/17/2018	Depression Screen (9Q)	4		Received
5780	ADDISON	TEST	8/16/2007	4/17/2018 2:43:04	Asthma Control Test (ACT), Ages 4-11	9		Received

5780	ADDISON	TEST	8/16/2007	1/3/2018 1:34:21 PM	Autism M-CHAT	-1		Informed
5845	JOSHUA	TEST	12/1/2012	9/26/2018	Autism M-CHAT	0		Complete

## Caveats

None.

## SQL Code: Firebird

To highlight and copy the code below to your clipboard, simply click the **Copy** button.

Copy

```
select patno, fname, lname, birthdat, cast(quest_result_header.admin_date as date) as qdate1, quest_questionnaire_header.title as title1,
quest_result_header.score as score1, quest_result_header.result_alpha, result_abnormal, c.descript as stage
from register
left outer join quest_result_header on quest_result_header.patno = register.patno
inner join quest_questionnaire_header on quest_questionnaire_header.questionhead_id = quest_result_header.questionhead_id
inner join (select * from code_table where group_id = 3) c on c.ref_id = quest_result_header.stage
where admin_date between :start_date and :end_date
order by patno, qdate1 desc
```

## SQL Code: MySQL

To highlight and copy the code below to your clipboard, simply click the **Copy** button.

Copy

```
select register.patno, fname, lname, birthdat, cast(quest_result_header.admin_date as date) as qdate1, quest_questionnaire_header.title as title1, quest_result_header.score as score1, quest_result_header.result_alpha, result_abnormal, c.descript as stage from register left outer join quest_result_header on quest_result_header.patno = register.patno inner join quest_questionnaire_header on quest_questionnaire_header.questionhead_id = quest_result_header.questionhead_id inner join (select * from code_table where group_id = 3) c on c.ref_id = quest_result_header.stage where admin_date between :start_date and :end_date order by patno, qdate1 desc
```
