

### Important Content Update Message

We are currently updating the OP Help Center content for the release of OP 20. OP 20 (official version 20.0.x) is the certified, 2015 Edition, version of the Office Practicum software. This is displayed in your software (**Help tab > About**) and in the Help Center tab labeled Version 20.0. We appreciate your patience as we continue to update all of our content.

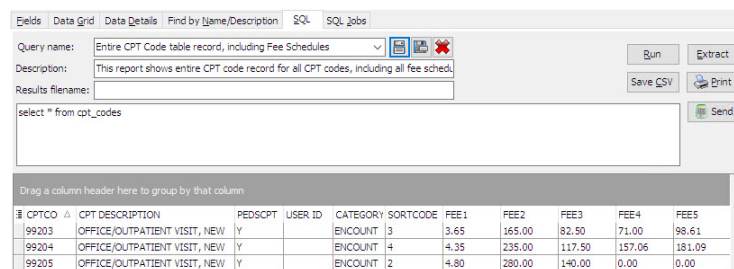

# SQL: Entire CPT Code table record, including Fee Schedules

Last Modified on 11/26/2019 5:48 pm EST

## About

This report shows entire CPT code record for all CPT codes, including all fee schedules for all CPTs entered into OP.

A sample image of this SQL report run in the Database Viewer is shown below:

The screenshot shows a database viewer interface with a query editor and a results grid. The query editor contains the SQL statement: `select * from cpt_codes`. The results grid displays the following data:

CPTCO	CPT DESCRIPTION	PEDSCPT	USER ID	CATEGORY	SORTCODE	FEE1	FEE2	FEE3	FEE4	FEE5
99203	OFFICE/OUTPATIENT VISIT, NEW	Y		ENCOUNT	3	3.65	165.00	82.50	71.00	98.61
99204	OFFICE/OUTPATIENT VISIT, NEW	Y		ENCOUNT	4	4.35	235.00	117.50	157.06	181.09
99205	OFFICE/OUTPATIENT VISIT, NEW	Y		ENCOUNT	2	4.80	280.00	140.00	0.00	0.00

## Caveats

ALL CPTs will be shown. To filter the report so that CPTs without a fee entered do not show, a custom filter should be created using the "greater than" filter.

## Code

To highlight and copy the code below to your clipboard, simply click the **Copy** button.

Copy

```
select * from cpt_codes
