Version 14.19

> This window map article points out some of the important aspects of the window you're working with in OP but is not intended to be instructional. To learn about topics related to using this window, see the **Related Articles** section at the bottom of this page.

About HL7 Error Log

| **Path: Admin tab > HL7 Error Log**

HL7 is an international standard for the transmission of medical data. The HL7 Error log provides a list of Error messages that occurred during the transmission of medical data for a specified date range. You can use this window in coordination with the HL7 Specification to determine resolutions to these errors.

Version 14.10

There is no HL7 Error Log window in OP 14.
