

SQL: Unbilled Encounter Notes

Last Modified on 01/20/2024 5:12 pm EST

i There are **two versions** of this SQL: Firebird and MySQL. **The MySQL version only applies to clients who have migrated to MySQL..** All other Practices should continue to use the Firebird version of this code. Click to expand and copy the code you need. If you are unsure which code to use, please check with your Practice Administrator.

About

This report shows all encounter notes and whether something was billed on those dates of service for a date of service range you specify.
