

Can I see a patient's next appointment from the Chart?

Last Modified on 06/03/2019 9:51 am EDT

Yes. A patient's next appointment is displayed in the **Clinical Overview** of the Patient Chart. If a patient does not have a future appointment scheduled, **None** will be displayed in the **Next appt:** field. The **Next appt:** field contains the date of the next appointment, the initials of the provider with whom the appointment is scheduled, and the appointment reason selected when the appointment was made.

Photo / Demographics / Critical Dates:	
NO PHOTO AVAILABLE	Last well visit: 05/14/2019
	Last sick visit: 05/15/2019
	Next appt: 08/16/2019 (SJK): 5-6 years (default)
	PCP: SLOANE KNOX, MD
