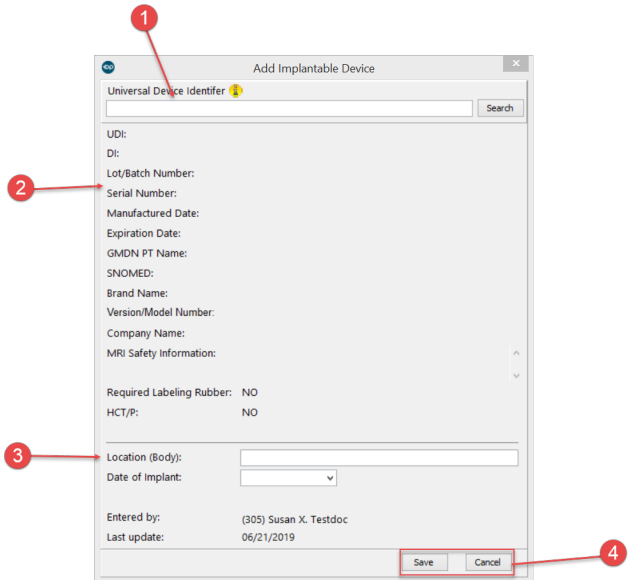
About Add Implantable Device

> **Path: Clinical, Practice Management or Billing tab > Patient Chart button > Implantable Device > New button**

The Add Implantable Device window allows the search for Universal Device Identifier and displays the returned information in read-only format once the search is conducted. It also allows users to enter the location and date of the implant.



Add Implantable Device

Number	Section	Description
1	Universal Device Identifier	The text-string identifier from the device packaging or coordination of care documentation, entered exactly to search for the device in the Global Unique Device Identifier Database (GUDID).
2	Device Information	Information (read-only) for the implantable device displays in the body of the window after searching for a valid and complete Universal Device Identifier.
3	Location and Date of Implant fields	These fields should be completed by the user to display the body location of the device and the date of the implant.
4	Function buttons	**Save**: Saves the device record and displays it in the Implantable Devices List. **Cancel**: Closes the window and does *not* save the record.
