

We are currently updating the OP Help Center content for the release of OP 14.19 or OP 19. OP 19 is a member of the certified OP 14 family of products (official version is 14.19.1), which you may see in your software (such as in Help > About) and in the Help Center tabs labeled 14.19. You may also notice that the version number in content and videos may not match the version of your software, and some procedural content may not match the workflow in your software. We appreciate your patience and understanding as we make these enhancements.

Immunization Registry CEHRT Landing Page

Last Modified on 10/01/2019 8:46 am EDT

Overview

The Immunization Registry in OP was updated to conform with current CEHRT guidelines. This page works as a one-stop spot to understand the new Immunization updates in the OP software.

Resources in this document include Articles, videos, and frequently asked questions.
