About

From the Complete tab of a child's Immunization record, you have the ability to edit vaccine records. The Edit button can be used to correct information such as, route, body site, vaccinator, or Lot number. In addition, you could select the checkbox to not forecast a vaccine, change the status or record an adverse reaction or VAERS injury type.

1. Navigate to a patient chart: **Clinical, Practice Management, Billing** tab > **Patient Chart**.
2. Search for and select a patient chart.
3. Click **Immunizations** and select the **Complete List** tab.
4. Select the immunization to edit.
5. Click the **Edit** button to open the Edit Vaccine window.
