

SQL: Patient Age Distribution by PCP

Last Modified on 06/12/2024 2:15 pm EDT

i There are **two versions** of this SQL: Firebird and MySQL. **The MySQL version only applies to clients who have migrated to MySQL..** All other Practices should continue to use the Firebird version of this code. Click to expand and copy the code you need. If you are unsure which code to use, please check with your Practice Administrator.

About

Shows active patients bucketed by age groups and by PCP.

A sample image of this SQL report run in the Database Viewer is shown below:
