

We are currently updating the OP Help Center content for the release of OP 14.19 or OP 19. OP 19 is a member of the certified OP 14 family of products (official version is 14.19.1), which you may see in your software (such as in Help > About) and in the Help Center tabs labeled 14.19. You may also notice that the version number in content and videos may not match the version of your software, and some procedural content may not match the workflow in your software. We appreciate your patience and understanding as we make these enhancements.

Does a Cancel Request for a controlled substance need to have two factor authentication or be digitally signed?

Last Modified on 09/17/2019 9:43 am EDT

Since a Cancel Request is not a fillable message, two factor authentication and digital signature are not required.
