How can I get Change Requests to show in the ePrescribing Center?

Last Modified on 07/07/2021 8:34 am EDT

The Change Request feature is a credential that must be turned on. We will begin to implement these features towards the end of this summer. If your Providers are interested in using any of these features, please contact **OP Support**.

- Generic Substitution
- Prior Authorization
- Therapeutic Interchange
- Out of Stock
- Drug Use Evaluation
- Script Clarification
- Prescriber Authorization
