

Important Content Update Message

We are currently updating the OP Help Center content for the release of OP 20. OP 20 (official version 20.0.x) is the certified, 2015 Edition, version of the Office Practicum software. This is displayed in your software (**Help tab > About**) and in the Help Center tab labeled Version 20.0. We appreciate your patience as we continue to update all of our content.

SQL: Active Patients with PCP and Medical Home

Last Modified on 11/26/2019 1:30 pm EST

About

This report shows all active patients with the PCP and Medical Home that is selected in the Basic Information of their patient chart. Blank fields indicate that the patient chart does not contain the information.

A sample image of this SQL report run in the Database Viewer is shown below:

The screenshot shows the Database Viewer interface with the SQL tab selected. The query name is 'Active Patients with PCP and Medical Home'. The description is 'Shows all active patients with the PCP and Medical Home that is selected in the Basic Information of their patient chart'. The results filename is empty. The SQL query is: `left outer join location on location.id = register.loc_id where status_pat = 'ACTIVE' and patno >=99 order by patno`. The results table has four columns: ADDR ID, PATNO, STAFFNAME, and LOC NAME. The data shows three rows of patient information.

ADDR ID	PATNO	STAFFNAME	LOC NAME
681	150	CORA NOEL, MD	Primary Location
305	151	SLOANE KNOX, MD	Primary Location
	152		Primary Location

Caveats

- STAFFNAME is the PCP that is selected in the patient chart.
- LOC NAME is the Medical Home that is selected in the patient chart.

Code

To highlight and copy the code below to your clipboard, simply click the **Copy** button.

Copy

```
select addr_id, patno, staffname, loc_name from register
left outer join staff1 on staff1.staffid = register.addr_id
left outer join location on location.id = register.loc_id
where status_pat = 'ACTIVE' and patno >=99
order by patno
```
