Anytime Pediatrics Support and Resources

Last Modified on 10/09/2020 2:22 pm EDT

Resources are only accessible to users who have partnered with Anytime Pediatrics.

Click to access **Anytime Pediatrics resources**.

Office Practicum has joined with Anytime Pediatrics to address your Telehealth needs. Anytime Pediatrics provides software that supports convenient virtual pediatric care via smartphone, tablet, or computer. Within OP, the practice has the ability to connect directly to Anytime Pediatrics.

You can contact your Solutions Manager directly or email**solutions@officepracticum.com** for more information. Your Solutions Manager can share more information about Anytime Pediatrics, our Telehealth partner, and how the integration works. Once you decide to add Telehealth to your suite of OP solutions, you will be contacted by a member of the Anytime Pediatrics team to initiate onboarding.

For information on integrating Telehealth with OP, click to view**Anytime Pediatrics Telehealth Integration Video**.
