Advanced Workflow Rules Engine (OP AWARE): Split Rule

Last Modified on 07/31/2020 3:37 pm EDT

Version 20.5

Scenario: Your practice performs Ear Piercing at Well Visits, but since it is not billable to Insurance, it must be split apart from the billable claim lines. Aside from splitting billable services from non-billable services, Split rules are especially useful when specific CPT Codes that exist on the same superbill have to be sent to different Insurance Payers.
