

## Add GTIN and NDC Numbers to a Vaccine Product

Last Modified on 04/19/2021 9:53 am EDT

## About

When vaccine products change or when additional NDC and GTIN numbers are available, it is the responsibility of the practice to enter this information in the Vaccine Products table.

- 1. Navigate to Practice Management tab > More button (Reference Data group) > Vaccine Products
- 2. Locate the vaccine product, and click the Edit button.
- 3. In the bottom section, click the Add button and enter the Product Description, GTIN, and NDCID.

Vaccine Code Table Details				-	-		×		
Vaccine name:	COVID19 100		To ensi	To ensure consistent forecasting, vaccine name cannot be changed. Inventory name MAY be modified.					
Inventory name:	COV2-MOD		Invento						
Description:	SARS-COV-2 (COVID-19) vaccine, mRNA, spike protein, LNP, p
