

2021-2022 Flu Vaccine Product Information

Last Modified on 07/14/2021 4:04 pm EDT

The CDC has not yet published an updated 2021-2022 Flu VIS. At this time, they recommend continuing to use the **2019-2020 Flu VIS, interim edition dated 8/15/2019**. To be notified by the CDC when this is updated, subscribe to get their email updates [here](#).

Note: Practices have up to **6 months** to use the prior version. OP will add the new VIS Barcode version, *as soon as feasible*, after released with an OP update, but in the meantime, you can **add it on your own**.

Active Flu Vaccine List for 2021-2022

Note: To quickly find the form you want in this table, use Filter or Sort:

- **Filter:** Enter specific keywords (or a character string) in the filter bar. As you type, the rows not containing those characters will become hidden. The visible rows display based upon the characters in the row that match the characters in the filter bar. The more characters you enter, the more the table will be filtered. Please only use keywords and correct spelling. You can use letters and numbers. **Do not use commas to separate keywords**
- **Sort:** You can sort A - Z and Z - A by clicking on a column header.

Java must be enabled in order to use the search and sort capability.
