Can a parent print their child's Lab results from the portal?

Last Modified on 12/09/2021 9:55 am EST

Yes. Lab results can be printed from the portal. They do not have to be requested or manually sent, but rather are considered clinical data and are automatically pushed to the portal. The parent will take these steps to access and print their child's Lab results:

1. Log into the portal and select the **patient's toggle** button.
2. In the Navigation Panel, select **Test Results**.
3. Proceed with one of the following options depending on what needs to be printed:

   - To print all Lab results, click the **Print All Lab Results** button.
   - To print a specific Lab result, click the **Test** and then click the **Print** button in the Result screen.

4. In the print window, click **Print This Page**.
