

OP Patient Portal Learning Journey Crosswalk

Last Modified on 02/01/2022 6:39 am EST

The **OP Patient Portal Learning Journey** has been revamped and now features interactive videos!

What does that mean for you?

- For starters, you'll be able to **take action in the learning videos** which are reformatted into Courses > Lessons to streamline and better organize your learning experience.

Did you know? Hands-on learning is proven to be more effective and absorbable than simply watching videos with your eyes and ears alone. Simply put, 3 out of 5 senses are more powerful than 2 out of 5! 

- It also means that if you previously started your journey, this format might make you feel a little lost. Don't worry! The **crosswalk below** will help you pick up right where you left off!

If you're just embarking on your Learning Journey, welcome! [Click here to access the interactive OP Patient Portal Learning Journey.](#)
