

# SQL: Invalid Phone Fields: Address Book

Last Modified on 09/06/2022 10:02 am EDT

**i** There are **two versions** of this SQL: Firebird and MySQL. The **MySQL version** only applies to clients who are **BETA testing MySQL**. All other Practices should continue to use the Firebird version of this code. Click to expand and copy the code you need. If you are unsure which code to use, please check with your Practice Administrator.

## About

This report shows phone numbers found in the Address Book that contain something other than 10 numeric values. After running this SQL, navigate to the Address Book for each contact to update their phone number(s): **Clinical or Practice Management tab > Address Book > select contact**.

A sample image of this SQL report run in the Database Viewer is shown below.
