## Information about SDOH codes

### SDOH-related codes

- Report these codes when an SDOH affects the patient's care or poses a risk. For example, a chronic medication has been prescribed but the parent/patient is unable to pay. You would code Z59.86 to document the patient's increased risk for noncompliance. You would not report it if it does not affect clinical decision-making and there is no expressed concern by the parent/patient.
