
Why didn't the parent receive the OP Portal Welcome Email?

Last Modified on 09/10/2024 8:32 am EDT

If a parent states that they have not received their Welcome email, navigate to the patient's **Family Contacts** and check their **Authority** and **Email Address**. If both are correct, you can always resend the Welcome email by clicking **Register** and confirming you want to send another email. This is especially helpful if they have a new email address.
