

Financial Analytics (PA): RVU Analysis

Last Modified on 10/25/2024 2:41 pm EDT

🔒 This is a contracted feature. Contact solutions@officepracticum.com to learn about implementing this in your Practice.

Version 21.3

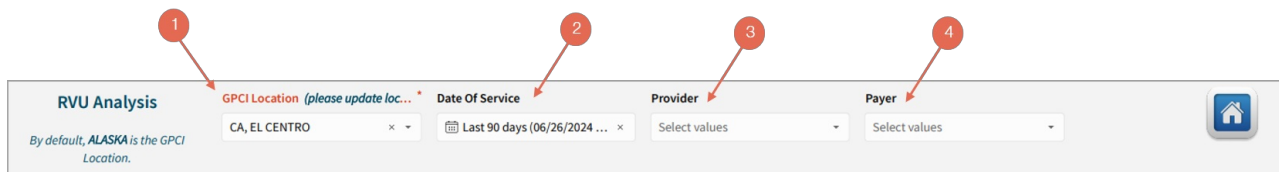

Path: Tools tab > Reporting button > Financial Analytics > RVU Analysis

When to Use this Report

Use this dashboard to track physician productivity and compensation using Relative Value Units (RVUs). It allows you to compare productivity, calculate payments, manage financial risk, set contract rates, and evaluate operational costs, all based on the time, effort, and cost of care. This data only goes back to 2022.

About RVU Analysis

RVU Analysis Filters

| Number | Section | Description |
|--------|-----------------|--|
| 1 | GPCI Location | By default ALASKA is the GPCI Location. Select the GPCI location here before running the report in order to pull accurate data for your practice. |
| 2 | Date of Service | Use this filter to select the date(s) you wish to search based on the posted date. See the Dates section of the Filter Tutorial article for the different selections. |
| 3 | Provider | Use this filter to select the provider(s) associated transactions. |
| 4 | Payer | Use this filter to select a Payer(s) associated with the transactions. |

RVU Analysis Dashboards Overview

RVUs by Provider

Type of report Summary Detailed Report

Displays: This tile will give a monthly breakdown, by month, provider, and CPT Code. This allows for detailed analysis of each provider's productivity, charges, and payments in relation to their workload.

Details:

- CPT Count: Number of procedures billed under each CPT code.
- Work RVU (wRVU): A measure of the provider's work effort associated with the CPT code.
- Total RVU (tRVU): Includes wRVU, practice expense RVU, and malpractice RVU..
- Charges per Total RVU: The amount charged divided by the tRVU.
- Payments per Total RVU: Payments received divided by the tRVU.
